Executive Summary

Effective security goes beyond simply placing guards at entry points; it involves vigilance, proactive risk prevention, and modern operational practices. Archer Shield Security Services combines professional manpower with intelligent technology, allowing our clients to benefit from both experienced personnel and real-time operational control. We deliver seamless, transparent, and accountable security services powered by the CTRL Room platform.

Who We Are : A Legacy of Trust

Archer Shield Security Services is backed by Aegis Support Services, a prominent UK-based security provider founded in 2001. Building on decades of expertise, Archer Shield commenced Indian operations in 2026, with our Corporate Office located in Hyderabad. Today, we boast a global presence spanning the UK, UAE and India.

We do not just provide manpower—we deliver discipline, reliable service, and peace of mind.

Comprehensive Security Solutions

We provide tailored solutions designed to meet the unique needs of diverse sectors:

Commercial Security: Protection for office buildings, IT parks, retail stores, and warehouses, including visitor access management and night patrols.

Event Security: Crowd control, VIP area protection, and entry regulation for public events and corporate gatherings.

Residential Security: Trained personnel for gated communities, apartment complexes, and villas.

Facilities Management: Integrated solutions including housekeeping, pest control, landscaping, and technical systems maintenance.

The Archer Shield Advantage (Manpower)

Our workforce is our greatest asset. Our India operations are headed by ex-military leadership, ensuring military-grade discipline and operational excellence.

Defence-Inspired Workforce:

Personnel exhibit premium uniform and presentation standards.

3-Tier Training Framework: Every guard is put through Basic, Advanced, and Refresher programs before deployment.

Specialized Skills: Guards are trained in access control, fire fighting, emergency response, and surveillance.

The Technological Edge (CTRL Room)

We manage our highly trained personnel using CTRL Room, a unified platform designed for real-world field conditions. This ensures you have total transparency over your site's security.

Core Technological Features:

- **Live GPS Tracking**
Real-time visibility of guards and site activity
- **Smart Scheduling**
Efficient workforce allocation and shift management
- **NFC Guard Tours**
Verified patrol completion and accountability
- **Incident Reporting**
Instant issue logging and escalation
- **Panic Alerts**
Rapid emergency response and communication

AI-Powered Operations:

CTRL Room is equipped with advanced AI capabilities, including smart scheduling recommendations, predictive risk alerts, and an AI-powered operations assistant known as ROOMIE.

Operational Benefits:

This integration results in faster incident response times, reduced paperwork, improved accountability, and professional client reporting.

Let's Secure Your Future

We look forward to supporting your operations with seamless security management.
